

CREATIONand God saw that it was good!

We all have an inborn affinity for the natural world. It lives in our intellects and imaginations, our genes and emotions, in our connections with the sun and the moon, stars and rains, forests and rivers, mountains and animals. We carry in our bloodstreams and bones the memories and energies of the whole creation in which we are imbedded.

Over time, our cultural and religious stories have created the illusion that we humans are separate and superior beings. In recent centuries we have manufactured a noisy and fast-paced world devoid of this intimate sense of belonging. The farther we have wandered from the Earth home, the more we have lost our connection with our own souls and the Soul of the World. Our "inventions" have become ever more dangerous to ourselves and to the life of the Planet. This we have come to know.

We who are alive today have been given this Universe Story. We are the first humans able to learn and live within this sacred revelation which gifts us with radical new insight into who we are, how we came to be, and why we are here. Our story enkindles new hope and wisdom within us.

THIS SPRING starting in APRIL, we are offering a six session spiritual awakening program that will bring us closer to our ever-more-sacred-home, and that we will experience ever more deeply the amazing LOVE which holds us in this caring Universe.

Through Scripture, The Pope's encyclical Laudato Si, music, DVD, ritual, prayers, we will flush out the following themes:
